

b) Text Function

Update the Month Short column in the Calendar Lookup table to extract and capitalize the first 3 characters of the month's name.

```
1 Month Short =  
2 UPPER(  
3     LEFT(  
4         FORMAT(  
5             'AdventureWorks Calendar Lookup 3'[Date] , "MMMM"  
6         ),  
7         3  
8     )  
9 )
```
